***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Barry Swanson on 12/15/05.

The application has been amended as follows:

In the Specification, on page 5, line 4 of section [0026], please add "In certain embodiments the particles have an MMAD of from about 0.2 to about 3 microns."

In claims 21 and 34, change "0.2" to --0.1--.

In claims 22 and 35 add the term "about" before "0.2" and "3".

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

The prior art teaches treating hypertension, acute myocardial infarction, cardiac arrhythmias or side effects of situational anxiety in patients by administering atenolol, pindolol, esmolol, propanolol and metoprolol. The novelty in the instant Application lies within the method of making and administering the condensate aerosols of the said drugs. The prior art does not teach producing a condensate by vaporizing the drug particles. The said condensates also provide a degradation product of less than 10% for the particles, an MMAD of less than 5 micron and a peak plasma drug concentration that is reached in less than 0.1 hours.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mina Haghighatian whose telephone number is 571-272-0615. The examiner can normally be reached on core office hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary L. Kunz can be reached on 571-272-0887. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system.
